Dear Mr. Golden and NAAB Board:

Our response to a correction of fact in the 2022 Visiting Team Report for SUNY Alfred State College is limited only to a very enthusiastic thank you to the visiting team for their expertise, professionalism, and assistance during the most recent visit.

It was truly a pleasure to work with Maurizio, John, Janet, Jack, and Julius. We benefitted significantly from their expertise and insights and have already begun planning to address the Conditions Not Achieved. Our questions centered mainly on observations made regarding scholarly research and professional practice, and how they align with our larger institutional mission and focus on applied research. We believe that those issues will be better addressed in the upcoming Plan to Correct.

Many thanks to all involved for helping us to realize our goal of becoming an even better program and keeping us true to our goal of providing students with a top professional education and real-world learning experiences. We would especially like to thank you and Ellen for your patience with us and your expert guidance and insight.

Respectfully Submitted,

William C. Dean, RA, AIA  
Professor of Architecture and Chair  
Department of Architecture + Design
