

ALFRED STATE COLLEGE

STATE UNIVERSITY OF NEW YORK

EMPLOYMENT & CONTINUING EDUCATION REPORT

CLASS OF 2018

Hit the ground *running*...

Employment and Continuing Education Report

Class of 2018

**A career outcomes report collected by the
Career Development Center reflecting outcomes
in the first year after graduation.**

Finding a career that is best for you, one that matches personality, skills, and interests while providing a family-sustaining wage, can lead to lifelong satisfaction. This guide provides information about a wide range of academic programs available and the employment success of recent graduates.

THE ALFRED STATE ADVANTAGE

At Alfred State College, hands-on experience leads to career success. Reach your goals by learning new skills needed for in-demand jobs. Earn your Alfred State degree and hit the ground running®. . .

All programs and services of the college are administered without discrimination on the basis of age, sex, marital or military status, race, color, creed, religion, national origin, disability, or sexual orientation. This policy of nondiscrimination extends to admission, financial aid, housing, counseling, educational programs, athletic activities, and placement as well as to all aspects of employment.

Introduction

The Career Development Center surveyed each of the 951 members of the May 2018 graduating class. Seventy-seven percent college-wide knowledge rate* was realized from the survey. The Alfred State Department of Technology Services generated the statistical information utilized in the preparation of this report in May 2019.

Highlights

- 78 percent of the graduates were employed after graduation.
- 93 percent of the employed graduates were employed in jobs related to their field of study at Alfred State.
- 21 percent of the graduates continued their education either at Alfred State or another college or university.

The 2018 Employment and Continuing Education Report is designed to provide the reader reference to employment and continuing education data by individual program. Data presented in this report is organized alphabetically. Each program contains employment and continuing education statistics for the last three years. Data presented in this report fall within the following guidelines:

- Graduates' employment status: Number receiving degrees, number responding to survey, number and percentage employed (military included in this category), number and percent employed in field, number and percentage continuing their education, number and percentage available for employment, and number and percentage not looking for employment.
- Employers: Employer name and job title
- Colleges: College name and major

For more comprehensive information about salaries, job descriptions, and growth occupations, please visit www.dol.gov, www.bls.gov, <http://online.onetcenter.org>, or www.naceweb.org (for national averages).

The Career Development Office wishes to express its gratitude to all the individuals who made this annual report a reality.

Questions may be directed to Elaine Morsman, Director, Career Development, 607-587-4060.

**The term "knowledge rate" defines the percent of graduates for which the institution has reasonable and verifiable information concerning the graduates' post-graduation career activities. This information may come directly from the graduates via, for example, a survey method. Relevant data, however, may also be provided by employers or obtained through other sources (e.g., LinkedIn profiles, other online sources, fellow graduates, or parents). The institution should make good faith efforts to verify the information obtained by any source other than the graduate or in any case where there is some concern about the accuracy of the available information. The goal should be the highest possible rate, but institutions should strive for a minimum knowledge rate of 65 percent. The knowledge rate refers to basic information about the career outcomes of graduates (e.g., employed or continuing education). It is a given that in some instances certain information relative to the details of that status (e.g., salary for First-Destination Standards/Protocols NACE | 7 those employed) may not always be provided or may otherwise be difficult to obtain.*
